

Science Project Overview

- Science Projects will be completed by each person in class.
- They will not be done in groups unless specifically authorized by your teacher.
- This assignment will count as two test grades.
- My expectation for this project is excellence.
- It should be neat, well organized, and thought out.
- It should be presented in the format of scientific process, which will be provided on a separate handout and covered in class.
- Resources for finding topics can include science project books, ideas from class material, new discoveries or research seen on T.V. or magazines, internet research etc.

Time frames for the science project are as follows:

- Present three basic topic areas you may be interested in.
Due: Friday, September 5. (Use narrowing down form).
- Narrow down topic to the one you will actually use for the project. Due: Friday, September 12.
- Draft format of project due Friday, October 19.
- Final Project due Friday, November 14.
