

August Homework (Kindergarten, First, and Second Grades)

During the first two weeks of school, students are asked to make a poster board about themselves to display in the class room. The size is not specified, but it needs to be an actual poster board that I can hang on a wall, not a tri-fold or other type of display that cannot be easily hung with tape or sticky tack.

You may help your students to complete this project. Be creative! They can put pictures of themselves and their family, pets, etc. on the board. They might put information about favorite foods, places to visit, color, etc. The idea is for the other students and teachers to have an opportunity to learn something about your child. I will display one child's poster each week when they are chosen as student of the week. Projects are due by September 6th, but may be turned in early.
